MISSION

- We provide creative & cost- effective supply chain solutions to our customers in the global logistics and transportation domain.
- Enhancing the efficiency of freight management by providing absolute value.
- In order to value our customers, we follow the practice of serving them with integrity and responsibility.

VISION

- We strive to build long-term relationships with our valued clients by providing a high level of service.
- By using our knowledge, we offer a proactive approach to our clients.
- As it pertains to air and sea logistics, we strive to provide excellent service, assist & guide our clients in the most effective direction.

OUR SERVICES

SEA FREIGHT

We provide sea freight services nationally and internationally as we have a huge network spread all over the world. We have ties with leading shipping companies, which helps us in providing highly reliable and efficacious ocean freight services.

AIR FREIGHT

Having years of experience, we offer reliable air cargo services. From the storage to the delivery of the cargo, all the procedures are handled according to a systematic framework.

LINER AGENCY

Our team handles complex and integrated movement from the factory to the foundation, including heavy haulage, crannage and customs, vessels and containers from Indian shores and anywhere else in the world.

REEFER CARGO

Whether you're shipping vaccines or vegetables, Transharbour's refrigerated containers are equipped to provide advanced transport you can rely on. Fruit, meat, medicines, and other frozen or refrigerated cargo all require precise temperature monitoring and expert care to maintain the cold chain and ensure complete safety. That's why Transharbour has developed unique technologies to ensure that our reefer container transportation is as secure, reliable and efficient as possible.

PROJECT CARGO

No matter how big or non-standard your cargo is, we coordinate safe storage and transportation. Transharbour serves a wide range of industries, from maritime, oil & gas, and power generation to water treatment, construction, and mining. Our terminals' quays give access to a wide range of vessels. Our clients appreciate our willingness to customize services in order to meet their unique requirements.

ISO TANK CONTAINERS & FLEXITANK CONTAINERS

Flexitanks from Transharbour are single-use, require no positioning costs, and generate no wastewater from being cleaned out. They are recyclable and compliant with global major health and safety regulations.

Installation of flexitanks and quality control procedures are handled with product and cargo verification by Transharbour, at any point when required. We help ensure shipments are protected by performing a Flexitank Installation Control Checklist for every flexitank solution we complete. All installations are insured, and cargoes are covered for 110% of cargo value.

HAZARDOUS AND NON HAZARDOUS CARGO

We transport dangerous goods across our global network, subject to carriers' acceptance, adhering to rigorous standards to ensure the health and safety of staff and the general public. Our specialized vehicles and expertly trained staff enable us to transport all nine classes of dangerous goods, complying with the regional, national, and international regulatory schemes applicable in the communities we work in.

CUSTOMS CLEARANCE

All our clients receive personalized service on the clearance of customs and delivery of their cargo. In addition to customs tariff consulting, we assist our clients with government permit applications, applications for tariff determinations, and applications for refunds.

SURFACE TRANSPORTATION

We offer regular and scheduled departures from and to all major cities as one of the leading LTL and FTL operators. Transportation of perishable and hazardous cargo is handled by a dedicated division that uses the best vehicles.

VESSEL CHARTERING & BROKERING

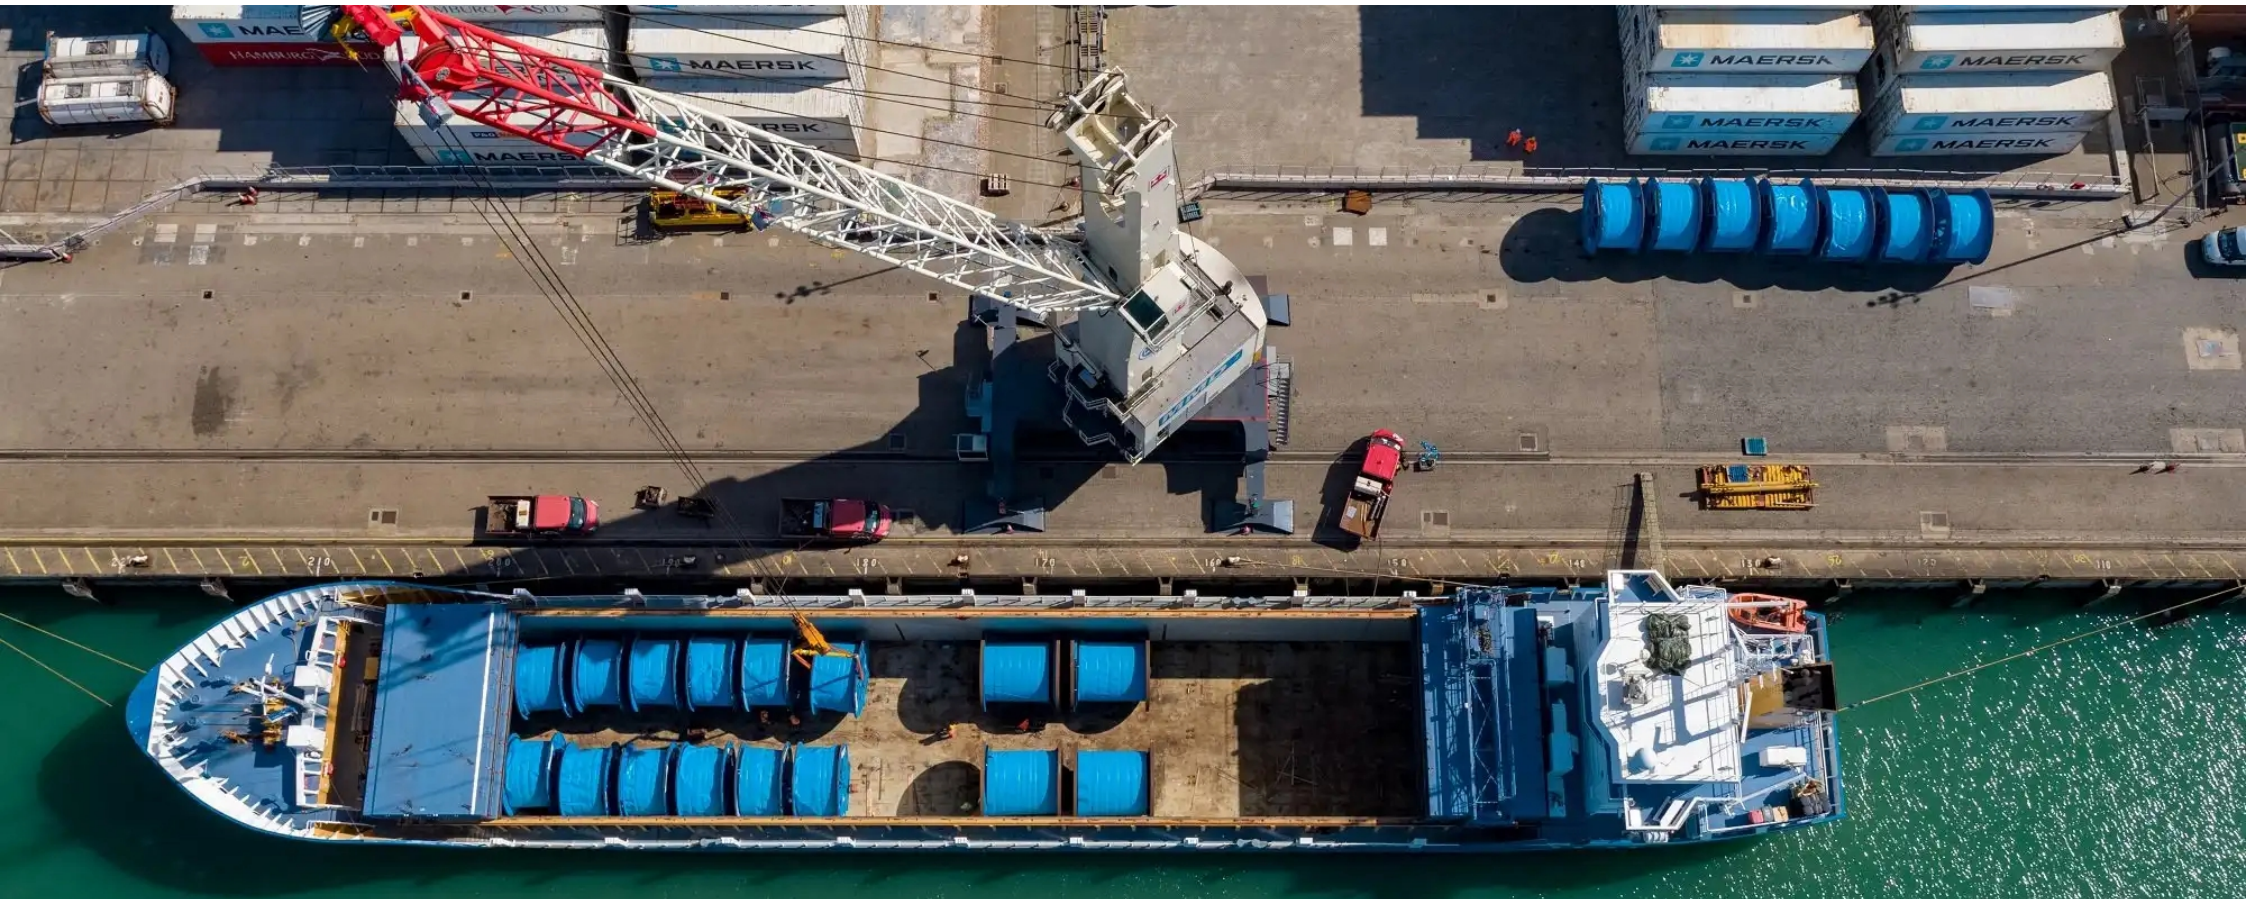

In addition to finding the right vessel for every client, we strive to meet or exceed their operational and commercial requirements. From sourcing the vessel to providing on-site supervision at the port of discharge, we provide our clients with a hassle-free door-to-door chartering experience.

BREAK BULK

Booking of vessels is one of our specialized services for handling breakbulk cargo. In the case of breakbulk vessels, we understand the specific requirements and unconventional cargo handling involved.

FCL & LCL CONSOLIDATION

We at Transharbour Shipping provide an import consolidation program for those consignees with multiple suppliers. Rather than small shipments and LCL shipments, we can consolidate your vendor's cargo into a full container for maximum container utilization. This also allows for pre-sorting, according to destination and possible distribution options through our de-consolidation program.

In addition to our FCL services, Transharbour also provides an export consolidation program for those shippers with multiple suppliers from India. Rather than small shipments LCL shipments we consolidate cargo into a full container for maximum container utilization.

FUMIGATION

The most popular cargo transport choice in the world is ocean-going containers. Containers are usually gas-tight and form an excellent enclosure for fumigation operations. Over the years of experience, we have designed and developed fumigation methods with state-of-the-art fumigation systems to ensure better quality results.

PACKAGING PALLETIZATION

Successfully transporting cargo has a lot to do with the management techniques and the right packaging. Since the nature of cargo differs, we rely highly on palletizing and commodity- oriented packaging methods. Our skilled personnel can help to manage your supply chain with absolute dependability and efficiency. We establish trust and transparency at every step, which is integral to our loyal client base.

WAREHOUSING & DISTRIBUTION

Security is enhanced by round-the-clock security guards and electronic theft and fire alarms installed in our warehouse. In addition to standard hygiene standards, we can provide our customers with certificates guaranteeing constant checks by specialized companies.

3 PL

3PL providers typically specialize in integrated operations, warehousing and transportation services that can be scaled and customized based on market conditions and the demands and delivery service requirements for their products and materials.

DOOR TO DOOR DELIVERY

Our door-to-door delivery service is ideal for clients who want to simplify logistics management, reduce costs and minimize the risk of loss or product damage while focusing on core business.

MULTIMODAL TRANSPORTATION

The Multimodal Transportation system is a vital link in our wide range of Supply Chain Management systems. Our team works relentlessly to ensure that any problems you may face are handled in a logical manner and in accordance with your requirements.

CARGO INSURANCE

Upon client request, we offer cargo insurance services through renowned insurance companies. We can offer both complete and cost-effective cargo insurance due to our quality service and international presence.
